

# ASSIGNMENT-1

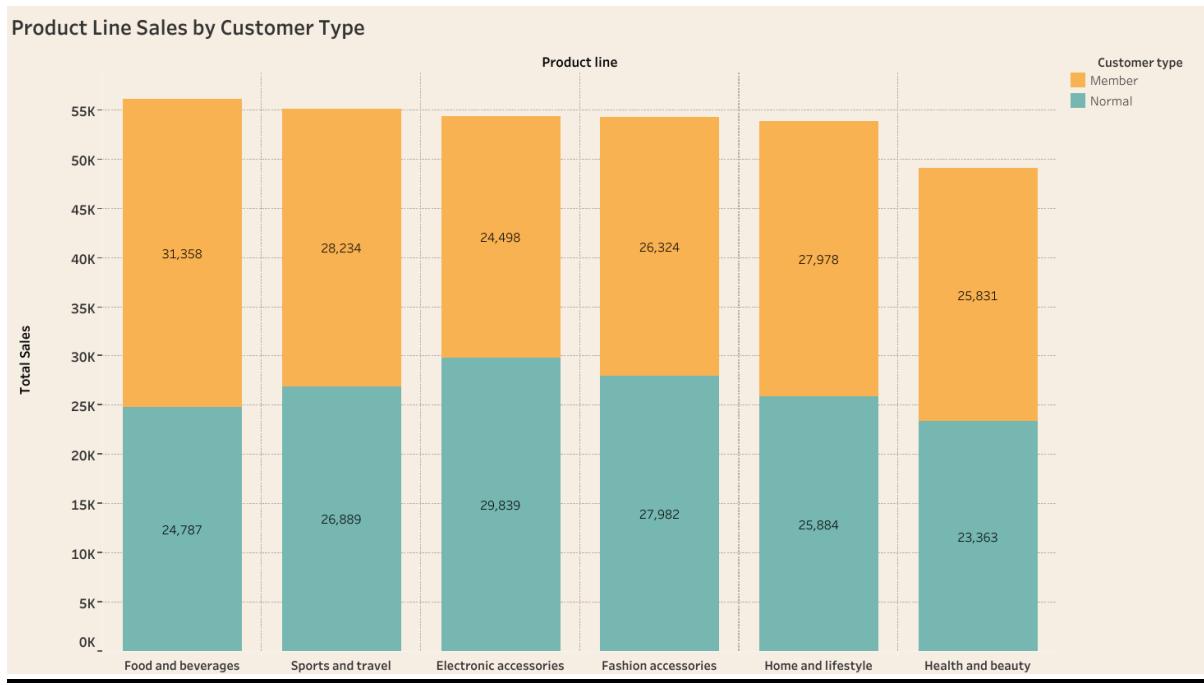

## 1. Bar Chart

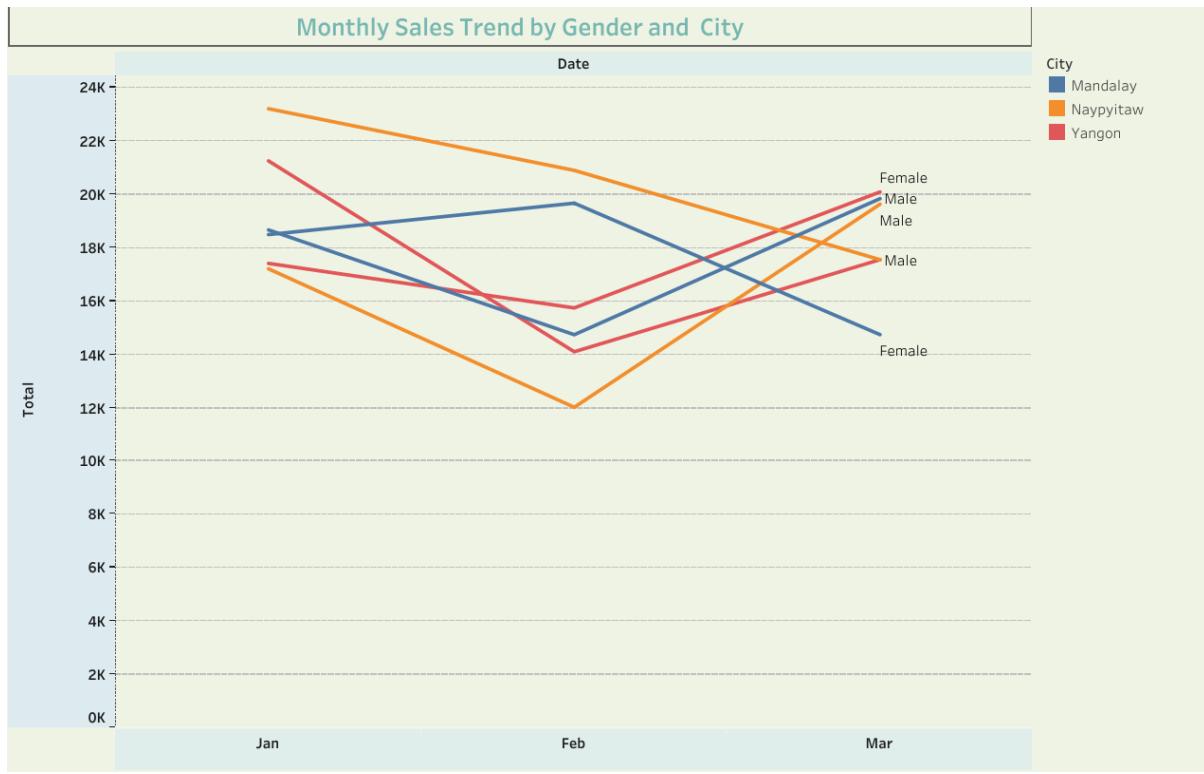

## 2. Pie Chart

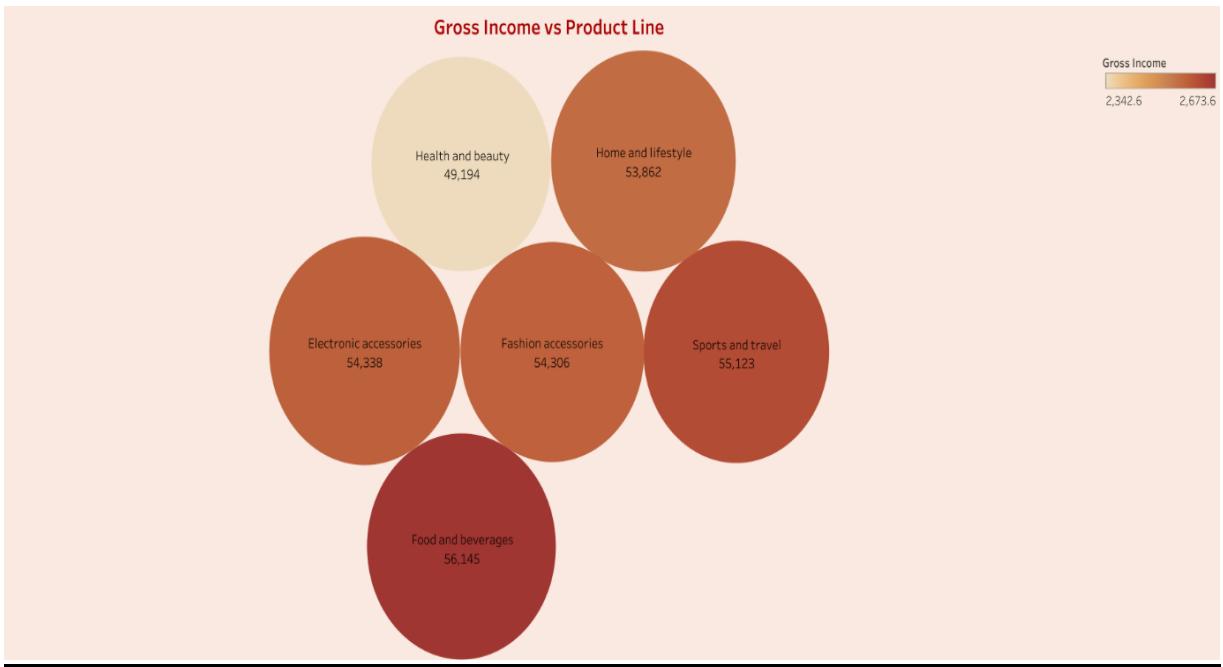

### 3. Stacked Bar Chart

### 4. Line chart

## 5. Bubble Chart

**Finally, we can conclude that:**

Through this assignment, various Tableau visualizations were used to analyze supermarket sales data effectively. Each chart provided unique insights into sales performance, customer behavior, and product trends. Visual analysis makes complex data easier to understand and helps in better decision-making.
